Monthly output

Yilai Enlighting Limited since from 2006,an old proficient manufacturer for the health and wellness sector. Conveniently located in the coastal province of Zhongshan, Guangdong, we specialize in the making of weighing scales covering smart wifi scale, bluetooth scale, body fat scale, bathroom weighing scale , kitchen scale and portable vacuum sealer. Our sophisticated workshop spreads 8000 square metres with 8 assembly lines along with a well equipped 400m² research and development center. Supporting us at this stage is a trained & skilled team of over 20 experienced engineers in electronics, mechanical and design fields. These advancements make us capable to produce 300 thousand scales per month, summing to more than 300 million pieces an year and distributed to more than 60 different countries worldwide.

Like a feather in the hat, Yilai Enlighting has been prestigiously honored with the title "New High-Tech Enterprise" by Zhongshan Government since 2015. We proudly own 100 plus patents in our name, with all our products being certified with latest FDA, ROHS, EMC, RED, LFGB & PAHS directives. Our extensive commitment towards quality products and services has not only bestowed us with a wealth of domestic and international clients, but also set up long-term business relationship with them. We therefore extend a warm welcome to visit Yilai Enlighting - a global market leader in the world health industry.

Solution Offer

Kettle of water purifier

According the net weight of kettle and gross weight of kettle full filled with water then able to auto outlet water and auto shutdown.

Weighing box for fridge

According to the removal weight then count how much should pay

Rice cooker with weight function

Best taste rice following the golden ratio between water and rice weight
Insert weight function make accurate ratio

Smart bottle

Record daily water take in
Remind to drink water
Show water temperature by flashed shiny ring light

The future of forests is in our hands

What's in a label?

The FSC label is the world's most trusted mark for sustainable forestry

A small label making a big impact

When you purchase FSC-labelled products, you're helping forests, and the people that rely on them, thrive by supporting:

Zero deforestation

Trees are harvested responsibly so there is no net loss of forest over time. Forests with irreplaceable values, such as old-growth forests, are identified and maintained. Reversing deforestation and maintaining irreplaceable forests are crucial to fighting climate change.

Fair wage and work environment

All workers are provided with proper training, adequate safety protocols, and fair wages.

Support the change from preservation to conservation

Plant and animal species are protected.

Community rights

Local communities living in and around forest areas are consulted, and their legal and cultural rights to land and forest resources are respected.

Yilai Enlighting Ltd is FSC license code C172851 holder

3 labels. 1 mission.

Behind every FSC label is a product that supports responsible forestry

FSC 100%

All materials used come from responsibly managed, FSC-certified forests. Products with the FSC 100% label contribute most directly to our mission to ensure thriving forests for all, forever.

FSC Recycled

The product is made from 100 per cent recycled materials. Using recycled material makes the most of precious forest resources and reduces the pressure to harvest more trees.

FSC Mix

The product is made with a mixture of materials from FSC-certified forests, recycled materials, and/or FSC-controlled wood. While controlled wood doesn't come from FSC-certified forests, it mitigates the risk of the material originating from unacceptable sources.

EB1912-AWD

- Product size: 300X300X27mm
- LCD size: 29*73mm

SMART LIFE FOR 8 ELECTRODE SCALE

It allows for segment analysis, i.e. a separate display of individual body parts (arms, legs, torso), measure the new body indicators including the separate weight of Left Hand Fat/Right Hand Fat/Body Fat/Left Leg Fat/Right Leg Fat/Left Hand Muscle/Right Hand Muscle/Body Muscle/Left Leg Muscle/Right Leg Muscle. Easy for you to know more details of your individual body parts, then you can exercise the specific parts you need, eg: left hand is fater than right hand, then exercise left hand more.

•Connection

It supports Bluetooth 4.2

•Family health management

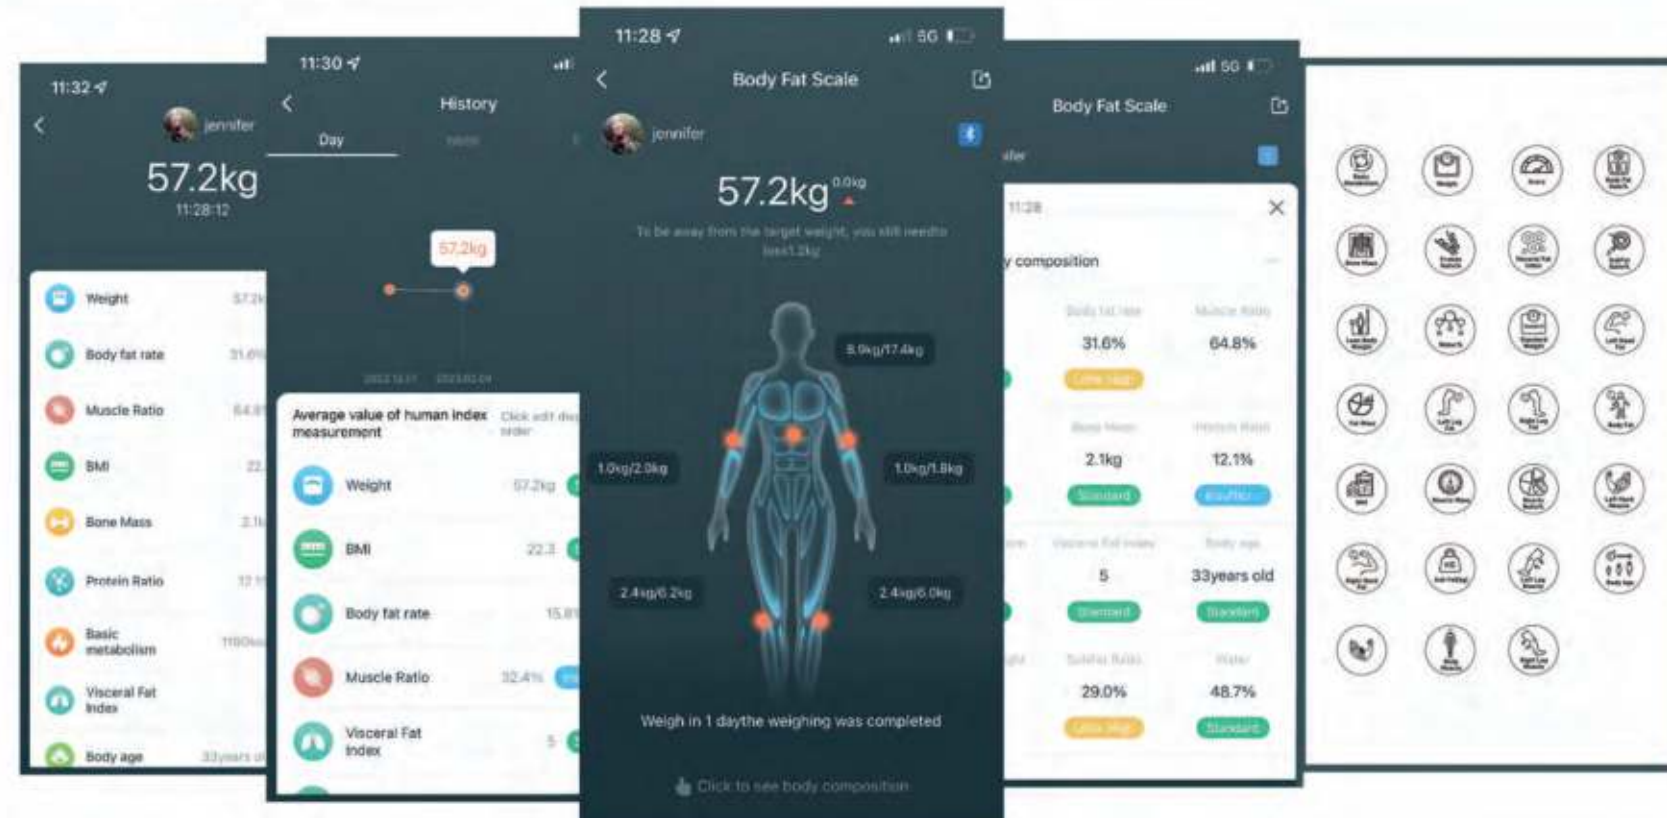

One account can support 8 user member, easy for controlling family health

•Body Measurement Analysis

It can measure 27 body data indicators including BMI, body fat rate, basal metabolic rate, etc. It can record the circumference and provide clear and quantitative health standards for reference.

•Data Dynamization

Record all historical body measurements and present trends with clear graphs to visually observe changes in the body over time.

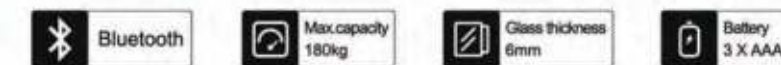

• App: smart life

★ PATENT REGISTERED, ALL RIGHTS RESERVED.

BF1808-8BT

- Product size: 320X280X25mm
- LED size: 28mm digital height
- Function: 27 in1
- Sales Point: Cross measurement with 8 electrodes allows for segment analysis (arms, legs, torso)

★ PATENT REGISTERED,ALL RIGHTS RESERVED.

BF1807-8BT

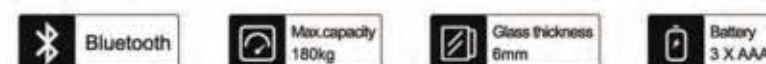

- Product size: 280X280X22mm
- LED size: 28mm digital height
- Function: 27 in1
- Sales Point: Cross measurement with 8 electrodes allows for segment analysis (arms,legs,torso)

★ PATENT REGISTERED,ALL RIGHTS RESERVED.

BF129-8BT

- Product size: 300X300X24mm
- LED size: 28mm digital height
- Function: 27 in1
- Sales Point: Cross measurement with 8 electrodes allows for segment analysis (arms,legs,torso)

BLUETOOTH & WIFI SCALE

Free your hands, realize real intelligence, and do not need to open and enter the APP with your mobile phone every time you measure.

WIFI remote data transmission. Both home measurement and mobile phone can access data in the office.

When the WIFI signal is weak, the standby Bluetooth technology realizes data reception

20 groups of data are stored offline to identify users according to weight.

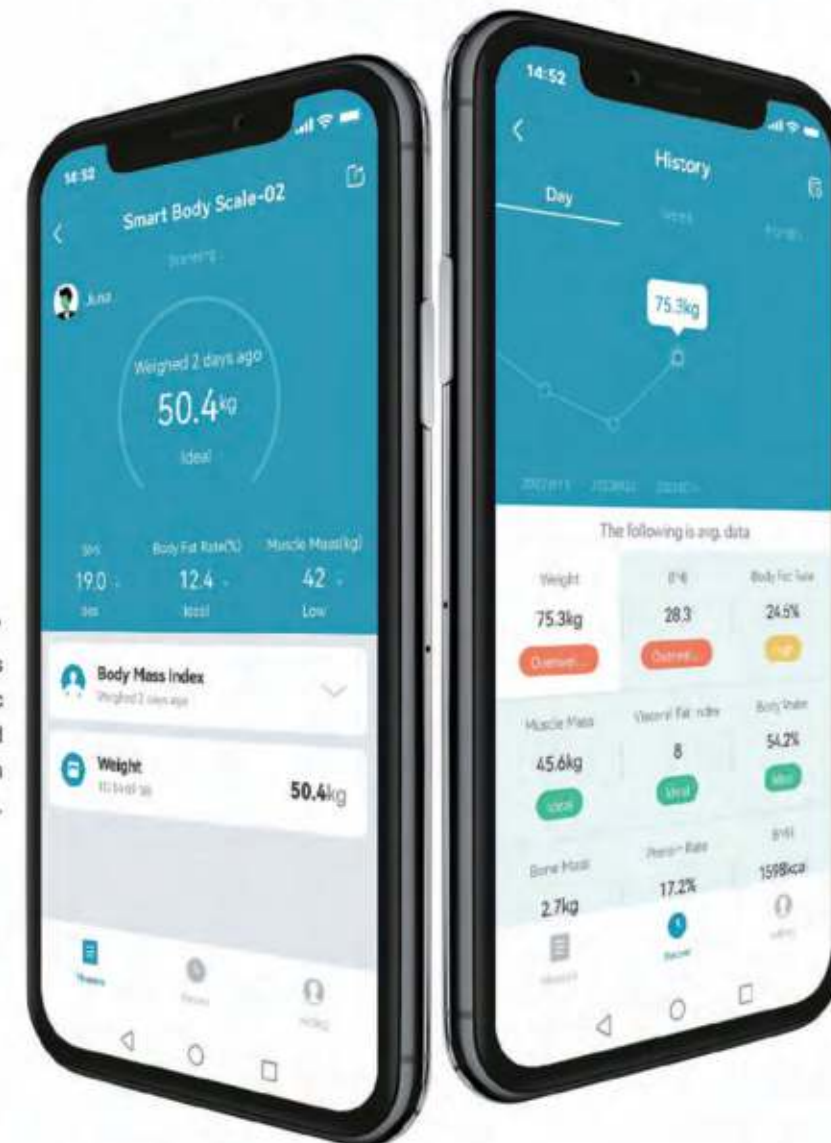

SMRAT LIFE APP

Connection •
WiFi 2.4G/Bluetooth 4.2

Body Measurement Analysis •
It can measure 18 body data indicators including BMI, body fat rate, basal metabolic rate, etc. It can record the circumference and provide clear and quantitative health standards for reference.

Family health management
One account can support 8 user member, easy for controlling family health

Data Dynamization
Record all historical body measurements and present trends with clear graphs to visually observe changes in the body over time.

AILINK APP

YILAI smart heart rate scale use the impedance measurement to assess the user's heart rate.

Method for obtaining heart rate, involves measuring changes in electrical impedance between feet due to ejection of blood from heart with each beat, and is implemented by simply standing on scale surface with barefoot.

•Connection

It supports Bluetooth 4.2

•Family health management

One account can support 8 user member, easy for controlling family health

•Body Measurement Analysis

It can measure 19 body data indicators including BMI, body fat rate, basal metabolic rate, etc. It can record the circumference and provide clear and quantitative health standards for reference.

•Data Dynamization

Record all historical body measurements and present trends with clear graphs to visually observe changes in the body over time.

COFFEE SCALE

How to make my own taste pour-over coffee?

Taste of hand-poured filter coffee related to water temperature, ratio between ground coffee and water, drip times as well. By using Yilai coffee scale helps you be a baristas. Improve your skills of make a cup of coffee now.

Scale measures weight of ground coffee, Tare function of scale let you know the water volume easily. Timer helps you control the drip time better.

To have a good taste pour-over coffee, a golden formula:

Water weight - 16.7 times ground coffee weight

Drip time - 5.5 times ground coffee weight

Water temperature - 92°C-96°C

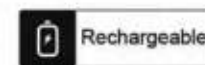

Coffee Coach function :

Work with APP to teach how to make coffee

★ PATENT REGISTERED, ALL RIGHTS RESERVED.

EC312-S

- Product size: 130X150X21mm
- LED size: 11mm digital height
- Unit: g/oz/ml
- Function: Display timer and weight to help you make a good taste pour-over coffee

HAND SHAKE GAME WIND COFFEE SCALE

The electronic coffee scale is an indispensable tool for making a cup of hand-made coffee with its own unique flavor. The weight ratio of coffee powder and 90 degrees of hot water, the steaming time of coffee, when the first water injection, how many grams of water injection and other data will change the final taste of a cup of coffee.

We have been thinking about how to make a more friendly coffee scale, so that green hand can make a qualified coffee according to the golden ratio. If this coffee scale can resonate with the shape, make coffee into a particularly fun thing, will it bring a pleasant and beautiful mood to the new day? Therefore, this hand shake game wind coffee scale was born.

EC325

- Product size: 120X155X27mm
